Precedence	Network Diagram
Critical Event	Scheduling
Float Time	Critical Path

A visual representation of the precedence relationships between tasks.	The order in which tasks must be completed, as defined in a precedence table.
The process of allocating time and resources to complete tasks according to their precedence relationships.	A task on the critical path that cannot be delayed without delaying the overall project completion.
The sequence of tasks that determines the minimum total time required to complete a project.	The amount of time a non-critical task can be delayed without impacting the overall project completion.
